

GYTS Objectives

The Global Youth Tobacco Survey (GYTS), a component of the Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring youth tobacco use (smoking and smokeless) and tracking key tobacco control indicators.

GYTS is a cross-sectional, nationally representative school-based survey of students in grades associated with ages 13 to 15 years. GYTS uses a standard core questionnaire, sample design, and data collection protocol. It assists countries in fulfilling their obligations under the World Health Organization (WHO) Framework Convention on Tobacco Control (FCTC) to generate comparable data within and across countries. WHO has developed MPOWER, a technical package of selected demand reduction measures contained in the WHO FCTC:

- Monitor tobacco use & prevention policies
- Protect people from tobacco smoke
- Offer help to quit tobacco use
- Warn about the dangers of tobacco
- Enforce bans on tobacco advertising, promotion, & sponsorship
- Raise taxes on tobacco

GYTS Methodology

GYTS uses a global standardized methodology that includes a two-stage sample design with schools selected with a probability proportional to enrollment size. The classes within selected schools are chosen randomly and all students in selected classes are eligible to participate in the survey. The survey uses a standard core questionnaire with a set of optional questions that countries can adapt to measure and track key tobacco control indicators. The questionnaire covers the following topics: tobacco use (smoking and smokeless), cessation, secondhand smoke (SHS), pro- and anti-tobacco advertising and promotion, access to and availability of tobacco products, and knowledge and attitudes regarding tobacco use. The questionnaire is self-administered; using scannable paper-based bubble sheets, it is anonymous to ensure confidentiality.

In Cambodia, GYTS was conducted in 2022 by the National Center for Health Promotion, under the coordination of the Ministry of Health. The overall response rate was 88.6%. A total of 3,247 eligible students in grades 7-12 completed the survey, of which 1,877 were aged 13-15 years. Data are reported for students aged 13-15 years.

GYTS Highlights

TOBACCO USE

- 3.5% of students, 4.4% of boys, and 2.8% of girls currently used any tobacco products (includes heated tobacco products).
- 2.5% of students, 3.4% of boys, and 1.7% of girls currently smoked tobacco.
- 1.2% of students, 1.8% of boys, and 0.7% of girls currently smoked cigarettes.
- 0.5% of students, 0.2% of boys, and 0.6% of girls currently used heated tobacco products.
- 1.9% of students, 2.1% of boys, and 1.7% of girls currently used smokeless tobacco.

ELECTRONIC CIGARETTES

- 0.9% of students, 1.1% of boys, and 0.8% of girls currently used electronic cigarettes.

SECONDHAND SMOKE

- 11.9% of students were exposed to tobacco smoke at home.
- 24.6% of students were exposed to tobacco smoke inside enclosed public places.

ADVERTISING & PROMOTION

- Almost 5 in 10 (49.6%) students noticed anti-tobacco messages on television, radio, internet, billboards, posters, newspapers, magazines, or movies.
- More than 4 in 10 (44.3%) students saw people using tobacco on TV, in videos, or in movies.
- More than 1 in 10 (13.3%) students noticed tobacco advertisements or promotions when visiting points of sale.
- Less than 1 in 10 (4.4%) students had something with a tobacco brand logo on it.

KNOWLEDGE & ATTITUDES

- 60.1% of students definitely thought other people's tobacco smoking is harmful to them.
- 54.8% of students favored prohibiting smoking inside enclosed public places.

TOBACCO USE

ANY TOBACCO USE <i>(smoked and/or smokeless)</i>	OVERALL (%)	BOYS (%)	GIRLS (%)
Current tobacco users ¹	3.5	4.4	2.8
Ever tobacco users ²	10.8	13.9	8.1*
SMOKED TOBACCO			
Current tobacco smokers ³	2.5	3.4	1.7
Current cigarette smokers ⁴	1.2	1.8	0.7
Frequent cigarette smokers ⁵	0.0	0.0	0.0
Current smokers of other tobacco ⁶	1.4	1.7	1.1
Ever tobacco smokers ⁷	7.3	10.1	4.9*
Ever cigarette smokers ⁸	4.4	6.9	2.3*
Ever smokers of other tobacco ⁹	3.8	4.6	3.1
HEATED TOBACCO			
Current users of heated tobacco products ¹⁰	0.5	0.2	0.6
Ever users of heated tobacco products ¹¹	1.1	0.8	1.3
SMOKELESS TOBACCO			
Current smokeless tobacco users ¹²	1.9	2.1	1.7
Ever smokeless tobacco users ¹³	5.2	5.9	4.5
SUSCEPTIBILITY			
Never tobacco users susceptible to tobacco use in the future ¹⁴	5.1	6.6	3.9*
Never tobacco smokers who thought they might enjoy smoking a cigarette ¹⁵	6.6	7.4	6.0

ELECTRONIC CIGARETTES

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current electronic cigarette users ¹⁶	0.9	1.1	0.8
Ever electronic cigarette users ¹⁷	1.8	2.1	1.5

SECONDHAND SMOKE

	OVERALL (%)	BOYS (%)	GIRLS (%)
Exposure to tobacco smoke at home ¹⁸	11.9	10.5	13.2
Exposure to tobacco smoke inside any enclosed public place ¹⁸	24.6	22.7	26.2
Exposure to tobacco smoke at any outdoor public place ¹⁸	25.5	22.9	27.8
Students who saw anyone smoking inside the school building or outside on school property ¹⁹	26.2	26.7	25.8

ADVERTISING & PROMOTION

TOBACCO ADVERTISING & PROMOTION	OVERALL (%)	BOYS (%)	GIRLS (%)
Students who noticed tobacco advertisements or promotions at points of sale ²⁰	13.3	12.5	14.0
Students who saw anyone using tobacco on television, videos, or movies ²¹	44.3	40.1	48.2*
