

Zambia – Lusaka (Ages 13-15)

Global Youth Tobacco Survey (GYTS)

FACT SHEET

The Zambia - Lusaka GYTS includes data on prevalence of cigarette and other tobacco use as well as information on five determinants of tobacco use: access/availability and price, exposure to secondhand smoke (SHS), cessation, media and advertising, and school curriculum. These determinants are components Zambia - Lusaka could include in a comprehensive tobacco control program.

The Zambia - Lusaka GYTS was a school-based survey of students in grade 7, 8 and 9, conducted in 2002. A two-stage

cluster sample design was used to produce representative data for all of Zambia - Lusaka. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 96%, the class response rate was 100%, the student response rate was 87.5%, and the overall response rate was 84%. A total of 1,241 students aged 13-15 participated in the Zambia - Lusaka GYTS.

Prevalence

- 28.0% of students had ever smoked cigarettes (Boy = 32.9%, Girl = 22.8%)
- 23.1% currently use any tobacco product (Boy = 22.8%, Girl = 22.4%)
- 9.2% currently smoke cigarettes (Boy = 9.4%, Girl = 8.7%)
- 17.7% currently use other tobacco products (Boy = 17.1%, Girl = 17.3%)
- 35.4% of never smokers are likely to initiate smoking next year

Knowledge and Attitudes

- 34.2% think boys and 21.9% think girls who smoke have more friends
- 23.1% think boys and 18.9% think girls who smoke look more attractive

Access and Availability - Current Smokers

- 26.6% usually smoke at home
- 20.6% buy cigarettes in a store

Exposure to Secondhand Smoke (SHS)

- 29.4% live in homes where others smoke in their presence
- 40.9% are around others who smoke in places outside their home
- 49.8% think smoking should be banned from public places
- 35.0% think smoke from others is harmful to them
- 23.2% have one or more parents who smoke
- 11.5% have most or all friends who smoke

Cessation - Current Smokers

- 54.4% tried to stop smoking during the past year
- 62.4% have ever received help to stop smoking

Media and Advertising

- 74.6% saw anti-smoking media messages, in the past 30 days
- 55.1% saw pro-cigarette ads on billboards, in the past 30 days
- 57.5% saw pro-cigarette ads in newspapers or magazines, in the past 30 days
- 17.9% have an object with a cigarette brand logo
