1. Introduction

Tobacco use is a major preventable cause of premature death and disease worldwide, with approximately 1.4 billion people age 15 years or older using tobacco¹. Furthermore, more than 8 million people die each year due to tobacco-related illnesses². If current trends continue, tobacco use may kill a billion people by the end of this century, and it is estimated that more than three quarters of these deaths will be in low- and middle-income countries³. An efficient and systematic surveillance mechanism is essential to monitor and manage the epidemic.

The **Global Adult Tobacco Survey (GATS)**, a component of Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring adult tobacco use and tracking key tobacco control indicators. GATS is a nationally representative household survey of adults 15 years of age or older using a standard core questionnaire, sample design, and data collection and management procedures that were reviewed and approved by international experts. GATS is intended to enhance the capacity of countries to design, implement and evaluate tobacco control interventions.

In order to maximize the efficiency of the data collected from GATS, a series of manuals has been created. These manuals are designed to provide countries with standard requirements as well as several recommendations on the design and implementation of the survey in every step of the GATS process. They are also designed to offer guidance on how a particular country might adjust features of the GATS protocol in order to maximize the utility of the data within the country. In order to maintain consistency and comparability across countries, following the standard protocol is strongly encouraged.

GATS manuals provide systematic guidance on the design and implementation of the survey.

1.1 Overview of the Global Adult Tobacco Survey

GATS is designed to produce national and sub-national estimates among adults across countries. The target population includes all non-institutionalized men and women 15 years of age or older who consider the country to be their usual place of residence. All members of the target population will be sampled from the household that is their usual place of residence.

GATS uses a geographically clustered multistage sampling methodology to identify the specific households that Field Interviewers will contact. First, a country is divided into Primary Sampling Units, segments within these Primary Sampling Units, and households within the segments. Then, a random sample of households is selected to participate in GATS.

The GATS interview is composed of two parts: *Household Questionnaire* and *Individual Questionnaire*. These questionnaires are administered using an electronic data collection device.

The GATS interview consists of two parts: the *Household Questionnaire* and the *Individual Questionnaire*. The *Household Questionnaire* (household screening) and the *Individual Questionnaire* (individual interview) will be conducted using an electronic data collection device.

At each address in the sample, Field Interviewers will administer the *Household Questionnaire* to one adult who resides in the household. The purposes of the *Household Questionnaire* are to determine if the selected household meets GATS eligibility requirements and to make a list, or roster, of all eligible members of the household. Once a roster of eligible residents of the household is completed, one individual will be randomly selected to complete the *Individual Questionnaire*. The *Individual Questionnaire* asks questions about background characteristics; tobacco smoking; electronic cigarettes; smokeless tobacco; cessation; secondhand smoke; economics; media; and knowledge, attitudes, and perceptions about tobacco.

1.2 Use of this Manual

This manual provides question by question instructions to the field interviewers for administering the core GATS *Household* and *Individual Questionnaires* using the handheld computer. The manual provides specific details for all of the core household and individual survey questions including purpose, instructions, and routing information. Note that GATS countries should modify this manual to match their country-adapted questionnaires.

2. Household Questionnaire

INTRO

[THE HOUSEHOLD SCREENING RESPONDENT SHOULD BE 18 YEARS OF AGE OR OLDER AND YOU MUST BE CONFIDENT THAT THIS PERSON CAN PROVIDE ACCURATE INFORMATION ABOUT ALL MEMBERS OF THE HOUSEHOLD.

IF NEEDED, VERIFY THE AGE OF THE HOUSEHOLD SCREENING RESPONDENT TO MAKE SURE HE/SHE IS 18 YEARS OF AGE OR OLDER.

THE HOUSEHOLD SCREENING RESPONDENT CAN BE LESS THAN 18 YEARS OLD, ONLY IF NO HOUSEHOLD MEMBERS ARE 18 YEARS OF AGE OR OLDER.]

INTRO1

An important survey of adult tobacco use behavior is being conducted by the (FILL COUNTRY SPONSORING AGENCY) throughout (FILL COUNTRY NAME) and your household has been selected to participate. All houses selected were chosen from a scientific sample and it is very important to the success of this project that each participates in the survey. All information gathered will be kept strictly confidential. I have a few questions to find out who in your household is eligible to participate.

Purpose: Provides introduction of the GATS survey to the household.

Instructions: The household screening interview should be completed by someone who is 18 years or older and lives in the household. You must be confident that this household member is able to provide accurate information about all of the people who live in the household. (The only exception is when a household does not have anyone 18 or older who lives there. Then you can conduct the household screening interview with someone who is younger than 18.)

Read the introduction to a household member that is 18 years or older. Answer any questions the household member may have about the survey and attempt to convince member to participate if he/she is hesitant.

HH1

First, I'd like to ask you a few questions about your household. In total, how many persons live in this household?

[INCLUDE ANYONE WHO CONSIDERS THIS HOUSEHOLD THEIR USUAL PLACE OF RESIDENCE]

RANGE: 0 – 50

IF HH1 = 00, GO TO NOELIGIBLE

Purpose: Determines how many people live in the household.

Instructions: Ask question and record the total number of people who live in the household.

Anyone who considers the household to be their usual place of residence should be included. Although you will not formally verify that all household members consider the selected household to be their usual place of residence, if you are specifically asked whether someone should be considered a resident, you should use the GATS target population and household residence guidelines provided below.

The program will not let you enter an answer that is over 50. Enter 50 if the answer is higher.

If the answer is 0, the program will route you to NOELIGIBLE and NOELIGIBLE2 to end the interview (provided below). The result code 201 "Completed Household Questionnaire, No One Selected" will be automatically selected in the Visit Record.

NOELIGIBLE

[THERE ARE NO ELIGIBLE HOUSEHOLD MEMBERS.

THANK THE RESPONDENT FOR HIS/HER TIME.

YOU WILL NOT BE PERMITTED TO BACK UP FROM THE NEXT SCREEN.]

NOELIGIBLE2

[THIS WILL BE RECORDED IN THE VISIT RECORD AS A CODE 201.]

GATS Target Population

The target population for GATS surveys should include all civilian, non-institutionalized men and women 15 years of age or older, and living in the included areas of the country, who meet GATS residency requirements at the country and household levels.

Individuals are viewed as residents of a GATS country if they are: (i) citizens of and residing in the country, or (ii) non-citizens living in the country, but who consider the country to be their **usual** country of residence (i.e., they have lived in the GATS country for at least half of the time during the 12 months prior to completing the *Household Questionnaire*).

Individuals aged 15 years of age or older, who are explicitly **excluded** from the survey, are those who, at the time that the *Household Questionnaire* is completed, are: (i) non-citizens visiting the country for a few weeks (e.g. tourists, in the country to see friends/relatives, etc.), (ii) citizens who indicate that their usual place of residence is on a military base, or (iii) citizens who are institutionalized—including people residing in hospitals, prisons, nursing homes, and other such institutions that will not be sampled in GATS.

Household Residence Guidelines

[COUNTRIES SHOULD UPDATE AS APPROPRIATE]

All civilian, non-institutionalized men and women of age 15 years of age or older in a sample household meet the household residence requirement if the sample household is considered to be their usual place of residence at the time that the *Household Questionnaire* is completed.

A usual member of a sample household is any person who has been normally living in the household or one who has no other residence. A person who has moved to the sample household recently is considered to be a member of that sample household if he/she does not plan to return to the old household. Similarly, a person who has recently moved out of the sample household with no intention to return is no longer considered a member of the sample household.

For household members with more than one residence, the “usual” place of residence means the residence where the household member spent at least half of the time in the past 12 months.

Some individuals who consider the sample household their usual residence may be temporarily living away from the sample household. Some common examples of this kind of household resident are: (i) students away at school and staying in a dormitory,¹ (ii) family members currently living away at a vacation home, and (iii) laborers who are temporarily living where they are working.

Note that if these temporary absentees are randomly selected to complete an *Individual Questionnaire*, every possible effort should be made to complete the interview with them. They should **not** be arbitrarily (or even randomly) replaced by another eligible member of the household.

¹ Since school dormitories will not be included on the lists used to select households, but students temporarily living away from home are included in the GATS target population, we must consider persons living in these dormitories to be residents of the household of which they are a part when they are not in school.

HH2

How many of these household members are 15 years of age or older?

RANGE: 0 – 20

IF HH2 = 0, GO TO NOELIGIBLE
IF HH2 > HH1, GO TO TOOMANY
IF HH1 > HH2, GO TO HH2A

TOOMANY

[YOU CAN'T/SHOULDN'T HAVE MORE PEOPLE \geq 15 YEARS OLD THAN THERE ARE TOTAL HH MEMBERS; PLEASE DOUBLE CHECK THE ANSWERS SO FAR.]

GO TO HH2

Purpose: Determines how many people age 15 or older live in the household.

Instructions: Ask question and record the total number of people 15 years of age or older who live in the household.

Anyone who is age 15 or older and considers the household to be their primary place of residence should be included.

The program will not let you enter an answer that is over 20. Enter 20 if the answer is higher.

If the answer is 0, the program will route you to NOELIGIBLE and NOELIGIBLE2 to end the interview (provided below). The result code 201 "Completed Household Questionnaire, No One Selected" will be automatically selected in the Visit Record.

NOELIGIBLE

[THERE ARE NO ELIGIBLE HOUSEHOLD MEMBERS.

THANK THE RESPONDENT FOR HIS/HER TIME.

YOU WILL NOT BE PERMITTED TO BACK UP FROM THE NEXT SCREEN.]

NOELIGIBLE2

[THIS WILL BE RECORDED IN THE VISIT RECORD AS A CODE 201.]

HH2A

How many household members are less than 5 years old?

RANGE: 0 - 20, -7 (DON'T KNOW), -9 (REFUSED)

SET HHTOTAL = HH2 + HH2A
IF HHTOTAL > HH1, GO TO TOOMANYYOUNG

Purpose: Determines how many people age 5 or less live in the household.

Instructions: Ask question and record the total number of people 5 years of age or less who live in the household.

If the answer is more people greater than or equal to 5 years old than there are total HH members, the program will route you to TOOMANYYOUNG (provided below).

TOOMANYYOUNG

[YOU CAN'T/SHOULDN'T HAVE MORE PEOPLE LESS THAN 5 YEARS OLD AND GREATER THAN OR EQUAL TO 15 YEARS OLD THAN THERE ARE TOTAL HH MEMBERS; PLEASE DOUBLE CHECK THE ANSWERS SO FAR.]

BACK UP TO HH2A

HH4BOTH

I now would like to collect information about only these persons that live in this household who are 15 years of age or older.

Let's start listing them from oldest to youngest.

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: Read this introduction and start asking the next questions about the oldest person (that is 15 or older) in the household and move toward the youngest. Try and list everyone in the order of their age. (It is okay if the listing is not done in order, as the program will sort the household members by age before selecting a respondent.)

HH4A

What is {FILL: oldest/next oldest} the person's first name?

Purpose: To collect the first name for each household members age 15 or older.

Instructions: Ask for first name only. Used only for respondent selection purposes. Initials or nicknames can be used if more than one household member has the same first name or if the household screening respondent is reluctant to provide this information.

The program will fill "oldest" for the first household member and then "next oldest" for the remaining household members.

HH4B

What is this person's age?

[IF RESPONDENT DOESN'T KNOW, PROBE FOR AN ESTIMATE]

RANGE: 15 – 110

IF HH4B >= 15 AND HH4B <= 17, GO TO HH4C

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: If the household screening respondent does not know the age, probe for an estimate.

The allowable age range in the program is from 15 to 110. If the reported age is less than 15, this household member should not be included on the roster. If needed, back-up to correct the number of household members age 15 or older.

If the age is reported as greater than 110, enter 110.

Routing: If the reported age is 15-17, the program will automatically route you to HH4C to ask for month of birth and to HH4D to ask for year of birth.

IF CALCULATED DATE OF BIRTH < 15, GO TO VALIDATEAGE

VALIDATEAGE

[AGE CALCULATED FROM BIRTH MONTH AND BIRTH YEAR IS LESS THAN 15. PLEASE DOUBLE CHECK THESE ANSWERS.]

BACK UP TO HH4C

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: If the reported age of a household member is 15 to 17, you will ask for month of the date of birth in order to verify the age.

The date of birth should calculate to 15 or older—if it does not, you will receive a prompt that the household member should not be included on the roster.

If the household screening respondent does not know or refuses to provide the month and/or year, the program will continue to HH4D.

HH4D

Is this person male or female?

MALE ☐ 1

FEMALE ☐ 2

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: Ask the question and record the gender (male or female) of the household member. Do not make an assumption about the gender from the name of the household member.

HH4E

Does this person currently smoke tobacco, including [FILL APPROPRIATE COUNTRY EXAMPLES: cigarettes, cigars, pipes, waterpipe]?

YES ☐ 1

NO ☐ 2

DON'T KNOW.. ☐ -7

REFUSED ☐ -9

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: Ask question and record answer.

EDITROSTERINTRO

[IF YOU NEED TO REVIEW THE ROSTER, SELECT THE ROSTER ICON.

GO BACK IF YOU NEED TO MAKE CHANGES.

GO TO NEXT SCREEN TO SELECT THE RESPONDENT.]

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: After asking the questions about each household member age 15 or older, the program will ask you if you need to review or make changes.

If you need to review the roster, select the roster icon. Here you can view the completed roster.

If corrections are needed, you will need to back-up to make changes (e.g., add or delete a person).

Go to the next screen to select the respondent. After doing this, you will not be able to back-up to make changes to the roster.

Purpose: Selects household member to participate in the individual interview.

Instructions: A household member from the household roster will be randomly selected by the program for the individual interview. (The result code 200 "Completed Household Questionnaire, One Person Selected" will be automatically selected in the Visit Record.)

Ask to interview the selected household member. Attempt to set an appointment for the individual interview if the selected respondent is not available for the interview at that time.

3.1 Consent

CONSENT1

[SELECT THE APPROPRIATE AGE CATEGORY BELOW. IF NEEDED, CHECK THE AGE OF THE SELECTED RESPONDENT FROM THE "CASE INFO" SCREEN IN THE TOOLS MENU.]

15-17 ☐ 1 → GO TO CONSENT2
18 OR OLDER ☐ 2 → GO TO CONSENT5
EMANCIPATED MINOR (15-17) .. ☐ 3 → GO TO CONSENT5

Purpose: Determines the appropriate routing to obtain consent to participate in the survey.

Instructions: The name and age of the selected respondent will be listed in the "Case Info" screen in the Tools menu. Select the appropriate age category.

If the selected respondent is 15 to 17 years old, you will need to obtain consent from a parent or guardian in addition to the respondent. If there is no one living in the household that is 18 years of age or older, select the EMANCIPATED MINOR (15-17) category. Parental/Guardian consent is not required for these situations.

Routing: If the answer is 15-17, the program will go to CONSENT2 (consent from parent/guardian and respondent).

If the answer is 18 OR OLDER, the program will go to CONSENT5 (consent from individual respondent).

If the answer is EMANCIPATED MINOR (15-17), the program will go to CONSENT5 (consent from individual respondent).

CONSENT2

Before starting the interview, I need to obtain consent from a parent or guardian of [NAME OF RESPONDENT] and from [NAME OF RESPONDENT].

[IF BOTH SELECTED RESPONDENT AND PARENT/GUARDIAN ARE AVAILABLE, CONTINUE WITH INTERVIEW.

IF PARENT/GUARDIAN IS NOT AVAILABLE, BREAK-OFF INTERVIEW AND SCHEDULE AN APPOINTMENT TO RETURN.

IF MINOR RESPONDENT IS NOT AVAILABLE, CONTINUE WITH OBTAINING PARENTAL CONSENT.]

Purpose: Determines whether the parent/guardian is available to provide consent.

Instructions: Read the introduction filling in the name of the selected respondent (provided in the "Case Info" screen in the Tools menu).

If the selected respondent and parent/guardian are both available at the same time, you will continue with the interview (CONSENT3) to obtain consent from both at the same time.

If the parent/guardian is not available to provide consent, you should break-off the interview and schedule an appointment to return when the parent/guardian will be able to provide consent.

If the selected respondent (minor) is not available but the parent/guardian is available, continue with obtaining consent from the parent/guardian at this time. You will obtain the consent from the selected respondent (minor) during the scheduled appointment to conduct the interview.

CONSENT3

[READ THE FOLLOWING TO THE PARENT/GUARDIAN AND SELECTED RESPONDENT (IF AVAILABLE):]

I am working with [Name of Organization]. This institution is doing a survey about tobacco use in [Country]. This information will be used for planning public health programs by the Ministry of Health.

The interview will last around 30 minutes. [NAME OF RESPONDENT] participation in this survey is entirely voluntary. The information that [NAME OF RESPONDENT] will provide will be kept strictly confidential and [NAME OF RESPONDENT] will not be identified by his/her responses. Personal information will not be shared with anyone else, not even other family members including you. [NAME OF RESPONDENT] can withdraw from the study at any time and may refuse to answer any question.

We will leave the necessary contact information with you. If you have any questions about this survey, you can contact the telephone numbers listed.

If you agree with [NAME OF RESPONDENT]'s participation in this survey, we will conduct a private interview with him/her.

[ASK PARENT/GUARDIAN:] Do you agree with [NAME OF RESPONDENT]'s participation?

YES ☐ 1 → **GO TO CONSENT4**
NO ☐ 2 → **END INTERVIEW**

Purpose: Obtains consent from the parent/guardian of the selected minor respondent.

Instructions: Read this text to the parent/guardian and the selected respondent (if present) at the same time. Ask the parent/guardian if he/she agrees for the selected respondent to participate. Answer any questions the parent/guardian or selected respondent may have about the survey and attempt to convince them to participate if they are hesitant.

You can provide the household with a list of contact information in order to obtain further information about the survey.

Routing: If the answer is YES, the program will go to CONSENT4.

If the answer is NO, the program will proceed to the end of the interview. You should then select code 304 (refusal) in the Visit Record.

Purpose: The A06 series of questions determines whether the respondent's household has any of the various items.

Instructions: Read stem question in A06A and ask each item part (A06A through A06J). Note that the stem question in parentheses for A06B through A06J does not need to be repeated for each item – only read if needed.

An item that is not working still should be included as a household possession.

Note that these items (A through J) are core. Countries might add items to this list.

3.3 Section B: Tobacco Smoking

B01

The following questions are about the use of different types of tobacco products. There are [three/four] categories of products that I will be asking you about separately: “classic” smoking tobacco products; electronic cigarettes such as [BRAND NAME(S)]; [heated tobacco products such as BRAND NAME(S);] and smokeless tobacco.

I would first like to ask you some questions about smoking tobacco, including [FILL APPROPRIATE COUNTRY EXAMPLES: cigarettes, cigars, pipes, waterpipe with tobacco]. This includes all products where you burn the tobacco as you smoke it.

Do you currently smoke tobacco on a daily basis, less than daily, or not at all?

- DAILY ☐ 1 → GO TO B04
LESS THAN DAILY ☐ 2
NOT AT ALL ☐ 3 → GO TO B03
DON'T KNOW ☐ -7 → GO TO NEXT SECTION
REFUSED ☐ -9 → GO TO NEXT SECTION
-

Purpose: Section B includes questions about tobacco smoking. B01 introduces the section and determines the current tobacco smoking status of the respondent.

Instructions: Read introduction, ask the question, and select only one answer. Note that the respondent should not be answering about electronic cigarettes or smokeless tobacco during Section B as these topics are covered in Sections EC and C. The introduction will be modified based on the country-adapted questionnaire.

Note that the examples of smoked tobacco products may be adjusted for the specific country.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide his/her current smoking status.

QxQ Screen: Daily means smoking at least one tobacco product every day or nearly every day over a period of a month or more.

Electronic cigarettes, which are also called e-cigarettes or vaping devices, are battery powered and heat a liquid to produce vapor or aerosol instead of smoke.

Heated tobacco products heat tobacco sticks or capsules that contain tobacco to produce vapor or aerosol.

Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Routing: If the answer is DAILY, the program will go to question B04.

If the answer is LESS THAN DAILY, the program will go to question B02.

If the answer is NOT AT ALL, the program will go to question B03.

If the answer is DON'T KNOW or REFUSED, the program will proceed to the next applicable section.

B02

Have you smoked tobacco daily in the past?

- YES ☐ 1 → GO TO B04
NO ☐ 2 → GO TO B04
DON'T KNOW ☐ -7 → GO TO NEXT SECTION
REFUSED ☐ -9 → GO TO NEXT SECTION
-

Purpose: Determines if the respondent smoked tobacco on a daily basis in the past.

Instructions: This question will be asked only to those respondents who said they currently smoke less than daily in question B01. Ask question and select only one answer.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to say whether he/she smoked daily in the past, unless the respondent truly cannot remember (e.g., due to memory loss).

QxQ Screen: Daily means smoking at least one tobacco product every day or nearly every day over a period of a month or more.

Routing: If the answer is YES or NO, the program will go to question B04.

If the answer is DON'T KNOW, or REFUSED, the program will go to question EC1.

B03

In the past, have you smoked tobacco on a daily basis, less than daily, or not at all?

[IF RESPONDENT HAS DONE BOTH “DAILY” AND “LESS THAN DAILY” IN THE PAST, CHECK “DAILY”]

- DAILY ☐ 1
LESS THAN DAILY ☐ 2
NOT AT ALL ☐ 3 → GO TO NEXT SECTION
DON'T KNOW ☐ -7 → GO TO NEXT SECTION
REFUSED ☐ -9 → GO TO NEXT SECTION
-

Purpose: Determines the respondent’s previous tobacco smoking status if he/she is not a current smoker.

Instructions: This question will be asked if the respondent says he/she does not smoke at all in question B01. Ask question and select only one answer. Note that if a respondent says he/she smoked daily and less than daily in the past, select the answer for DAILY.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide his/her past smoking status, unless the respondent truly cannot remember (e.g., due to memory loss).

QxQ Screen: Daily means smoking at least one tobacco product every day or nearly every day over a period of a month or more.

Rare instances of smoking or experimental smoking (tried once or twice in lifetime) should be counted in the NOT AT ALL category.

Routing: If the answer is DAILY or LESS THAN DAILY, the program will go to question B04.

If the answer is NOT AT ALL, DON'T KNOW, or REFUSED, the program will proceed to the next applicable section.

Purpose: Determines when the respondent first started smoking tobacco on a daily basis.

Instructions: B05 is asked to respondents to determine when he/she first started smoking tobacco daily. Ask question and record answer. If B05 is answered DON'T KNOW or REFUSED, B05A will ask the respondent how many years ago he/she first started smoking daily. If the respondent reports the answer in fraction of years (e.g., two years and two months), round up or down to the nearest whole number (round up for "a half" or "6 months"). If the respondent reports a range, probe for a specific answer.

BACK UP TO B06A

Purpose: The B06 series of questions determines the number of tobacco products that the respondent smokes each day (or each week).

Instructions: Asked to respondents who currently smoke tobacco daily. Ask the stem question in B06A and each item part (B06A through B06G). Note that the stem questions in parentheses for B06B through B06G do not need to be repeated for each item – only read if needed.

For B06A through B06G, if the respondent answers that he/she smokes one of the products but not every day, you should select "SMOKES LESS THAN DAILY" or enter "888". Then, the program will immediately administer a follow-up question (for that specific tobacco product) asking about per week usage. A similar option ("SMOKES LESS THAN WEEKLY") is available for the per week questions (B06A1 through B06G2).

If the respondent reports an answer in packs or cartons, it is important to probe to determine a total number. You should not enter the number of packs or cartons. You may need to assist the respondent in determining the number (of the tobacco product of interest) that are in each pack or carton and calculating the total number.

For B06G, if the respondent reports a type not already listed, you will be prompted to record the type in B06G1. Note that the item parts (tobacco products) may be adjusted for the specific country.

QxQ Screen:

{IF RESPONDENT REPORTS SMOKING THE PRODUCT BUT NOT EVERY DAY, ENTER 888 / IF RESPONDENT REPORTS SMOKING THE PRODUCT WITHIN THE PAST 30 DAYS, BUT LESS THAN ONCE PER WEEK, ENTER 888}

IF DON'T KNOW, ENTER -7, IF REFUSED, ENTER -9

Validation Check: A validation check screen will appear when the reported number of manufactured cigarettes smoked daily in B06A (or weekly in B06A1) is 1 to 3 or 100 to 200, in order to review the following: 1) For 1 to 3, confirm that the total number of cigarettes smoked daily (or weekly) is being entered rather than number of packs (or cartons), and 2) For 100-200, confirm that the high amount being entered is correct.

If the answers to B06A through B06G all are 0, a check screen will appear to indicate the respondent has reported smoking no products daily, but was classified as a daily smoker.

QxQ Screen:

IF RESPONDENT REPORTS SMOKING THE PRODUCT WITHIN THE PAST 30 DAYS, BUT LESS THAN ONCE PER WEEK, ENTER 888

IF DON'T KNOW, ENTER -7, IF REFUSED, ENTER -9

Validation Check: A validation check screen will appear when the reported number of manufactured cigarettes smoked daily in B08A is 1 to 3 or 100 to 200, in order to review the following: 1) For 1 to 3, confirm that the total number of cigarettes smoked weekly is being entered rather than number of packs (or cartons), and 2) For 100-200, confirm that the high amount being entered is correct.

If the answers to B08A through B08G all are 0, a check screen will appear to indicate the respondent has reported smoking no products, but was classified as a less than daily smoker.

Routing: The rest of Section B will be skipped and the interview will proceed to the next applicable section.

GO TO B10

B09BDAYS

(How long has it been since you stopped smoking?)

[ENTER NUMBER OF DAYS]

RANGE: 1 – 60

Purpose: Determines when the respondent stopped smoking.

Instructions: The B09 questions are asked to respondents who do not currently smoke tobacco but have smoked in the past. You will ask the question in B09A and record the answer using only one unit (years, months, weeks, or days) or select the appropriate category if the answer is less than one day (less than 24 hours). You will enter the unit in B09A and the number in the next screen (B09BYEARS, B09BMONTHS, B09BWEEKS, B09BDAYS).

Do not count instances where the respondent might have smoked a tobacco product on a rare occasion (e.g., one cigar at a wedding). We are interested in knowing the time frame from when the respondent stopped smoking tobacco on a regular basis.

If the answer is reported as a fraction (e.g., one year and two months), either convert the amount to a different unit (e.g., one year and two months = 14 months) or round up or down to the nearest whole number (round up for a half).

Routing: If the answer to B09A/B is less than one year (less than 12 months), the program will go to question B10.

If the answer to B09A/B is one year or more (12 months or more), the rest of Section B will be skipped and the program will proceed to the next applicable section.

B10

Have you visited a doctor or other health care provider in the past 12 months?

YES ☐ 1
NO ☐ 2 → GO TO B14A
REFUSED ☐ -9 → GO TO B14A

Purpose: Determines if the respondent went to a doctor or health care provider in the past 12 months.

Instructions: Asked to respondents who do not currently smoke tobacco, but have quit smoking within the past 12 months. Ask question and select only one answer.

Routing: If the answer is NO or REFUSED, the program will go to question B14A.

B11

How many times did you visit a doctor or health care provider in the past 12 months? Would you say 1 or 2 times, 3 to 5 times, or 6 or more times?

1 OR 2 ☐ 1
3 TO 5 ☐ 2
6 OR MORE ☐ 3
REFUSED ☐ -9

Purpose: Determines how many times a respondent visited a doctor or health care provider in the past 12 months.

Instructions: Asked to respondents who said they have visited a doctor or health care provider in the past 12 months (in question B10). Ask question and select only one answer.

B12

YES ☐ 1
NO ☐ 2 → GO TO B14A
REFUSED ☐ -9 → GO TO B14A

Purpose: Determines if, during a visit in the past 12 months to a doctor or health care provider, the respondent was asked if he/she smokes tobacco.

Instructions: Asked if the respondent visited a doctor or health care provider in the past 12 months. Ask question and select only one answer.

Routing: If the answer is NO or REFUSED, the program will go to question B14A.

B13

During any visit to a doctor or health care provider in the past 12 months, were you advised to quit smoking tobacco?

YES ☐ 1
NO ☐ 2
REFUSED ☐ -9

Purpose: Determines whether a respondent was advised by a doctor or health care provider (during any visit in the past 12 months) to quit smoking tobacco.

Instructions: Asked if a doctor or health care provider during any visit in the past 12 months asked the respondent if he/she smokes tobacco. Ask question and select only one answer.

B14H

(During the past 12 months, did you use any of the following to try to stop smoking tobacco?)

Try to quit without assistance?

YES ☐ 1
NO ☐ 2
REFUSED ☐ -9

Purpose: The B14 series of questions determines if the respondent used any of the listed methods to try to stop smoking tobacco in the past 12 months.

Instructions: Asked to respondents who do not currently smoke tobacco, but have quit smoking within the past 12 months. Ask stem question in B14A and each item part (B14A through B14H). Note that the stem question in parentheses for B14B through B14H does not need to be repeated for each item – only read if needed.

Note that the methods and examples may be adjusted for the specific country.

QxQ Screen:

B14F: If the respondent does not know what electronic cigarettes are, select NO.

B14G: If the respondent does not know what heated tobacco products are, select NO.

3.4 Section EC: Electronic Cigarettes

EC1

Now I want to ask you about electronic cigarettes, which are also called e-cigarettes or vaping devices. These devices are battery powered and heat a liquid to produce vapor or aerosol instead of smoke. Examples of these products include [NAME LEADING BRANDS].

Prior to today, have you ever heard of electronic cigarettes or vaping devices?

YES ☐ 1
NO ☐ 2 → GO TO NEXT SECTION
REFUSED ☐ -9 → GO TO NEXT SECTION

Purpose: Section EC includes questions about electronic cigarettes (including all vaping devices). EC1 introduces the section and determines the respondent has ever heard of electronic cigarettes.

Instructions: Read introduction, ask the question, and select only one answer. The introduction will be modified based on the country-adapted questionnaire.

QxQ Screen: Electronic cigarette products include personal vaporizers, modular systems, tank systems, and rechargeable systems with pods or cartridges.

Routing: If the answer is YES, the program will go to question EC2.

If the answer is NO or REFUSED, the rest of Section EC will be skipped and the program will proceed to the next applicable section.

EC2

Do you currently use electronic cigarettes or any other vaping device on a daily basis, less than daily, or not at all?

DAILY ☐ 1 → GO TO EC5A
LESS THAN DAILY ☐ 2 → GO TO EC4
NOT AT ALL ☐ 3
DON'T KNOW ☐ -7 → GO TO NEXT SECTION
REFUSED ☐ -9 → GO TO NEXT SECTION

Purpose: Determines the current electronic cigarette use status of the respondent.

Instructions: Ask the question and select only one answer. If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide his/her current electronic cigarette status.

QxQ Screen: Daily means using electronic cigarettes or any other vaping device every day or nearly every day over a period of a month or more.

Routing: If the answer is DAILY, the program will go to question EC5A.

If the answer is LESS THAN DAILY, the program will go to question EC4.

If the answer is NOT AT ALL, the program will go to question EC3.

If the answer is DON'T KNOW or REFUSED, the rest of Section EC will be skipped and the program will proceed to the next applicable section.

EC3

Have you ever, even once, used an electronic cigarette or any other vaping device?

YES ☐ 1
NO ☐ 2 → GO TO NEXT SECTION
DON'T KNOW ☐ -7 → GO TO NEXT SECTION
REFUSED ☐ -9 → GO TO NEXT SECTION

Purpose: Determines whether respondents have ever used an electronic cigarette.

Instructions: This question is asked to those who answered they do not currently use electronic cigarettes (EC2 = 3). Ask the question and select only one answer. If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide this information.

Routing: If the answer is YES, the program will go to question EC4.

If the answer is NO, DON'T KNOW, or REFUSED, the rest of Section EC will be skipped and the program will proceed to the next applicable section.

EC4

Have you ever used electronic cigarettes or any other vaping device daily in the past?

YES ☐ 1 → GO TO EC5B
NO ☐ 2 → GO TO ECCOMP1
DON'T KNOW ☐ -7 → GO TO ECCOMP1
REFUSED ☐ -9 → GO TO ECCOMP1

Purpose: Determines whether respondents used electronic cigarettes daily in the past.

Instructions: This question is asked to those who answered they currently use electronic cigarettes on a less than daily basis (EC2 = 2) or they do not currently use electronic cigarettes but have used them in their lifetime (EC3 = 1). Ask the question and select only one answer. If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide this information.

QxQ Screen: Daily means using electronic cigarettes or any other vaping device every day or nearly every day over a period of a month or more.

Routing: If the answer is YES, the program will go to question EC5B.

If the answer is NO, DON'T KNOW, or REFUSED, the program will go to ECCOMP1.

EC5A

For how long have you been using electronic cigarettes or any other vaping device on a daily basis?

EC5B

For how long did you use electronic cigarettes or any other vaping device on a daily basis?

Would you say less than 1 month, 1 to 3 months, 4 to 11 months, 1 to 2 years, or more than 2 years?

LESS THAN 1 MONTH. ☐ 1
1 TO 3 MONTHS ☐ 2
4 TO 11 MONTHS ☐ 3
1 TO 2 YEARS ☐ 4
MORE THAN 2 YEARS ☐ 5
DON'T KNOW ☐ -7
REFUSED ☐ -9

Purpose: Determines how long respondents used electronic cigarettes on a daily basis.

Instructions: EC5A is asked to those who are currently using electronic cigarettes on a daily basis (EC2 = 1) while EC5B is asked to those who are not currently using electronic cigarettes on a daily basis but have used them daily in the past (EC4 = 1). Ask the question and select only one answer.

ECCOMP1

IF EC2 = 1 OR 2, GO TO EC6ACOMP; ELSE GO TO NEXT SECTION

Purpose: Determines the appropriate routing sequence for the interview.

Instructions: The program will determine the appropriate routing based on previous questions. You will not see this screen.

Routing: If EC2 = 1 or 2 (current daily or less than daily user of electronic cigarettes), the program will go to EC6ACOMP. Otherwise the program will proceed to the next applicable section.

EC6ACOMP

IF B01 = 1 OR 2, GO TO EC6A; ELSE GO TO EC6BCOMP

REFUSED ☐ -9

EC6H

(Which of the following are reasons that you use electronic cigarettes or any other vaping device?)

A friend or family member uses them?

YES ☐ 1
NO ☐ 2
REFUSED ☐ -9

Purpose: The EC6 series of questions determines the reasons for using electronic cigarettes.

Instructions: The EC6 questions are asked to current users of electronic cigarettes (EC2 = 1 or 2). EC6A is only asked to current smokers (B01 = 1 or 2) who currently use electronic cigarettes and EC6B is only asked to former smokers (B03 = 1 or 2) who currently use electronic cigarettes.

Read the stem question in EC6A (or in EC6B or EC6C, depending on the first question of the series) and each item part (EC6A through EC6H). Note that the stem question in parentheses for EC6B through EC6H does not need to be repeated for each item – only read if needed.

3.5 Section C: Smokeless Tobacco

C01

The next questions are about using smokeless tobacco, such as [FILL APPROPRIATE COUNTRY EXAMPLES: snuff, chewing tobacco, and dip]. Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Do you currently use smokeless tobacco on a daily basis, less than daily, or not at all?

[IF RESPONDENT DOES NOT KNOW WHAT SMOKELESS TOBACCO IS, EITHER PRESENT A SHOWCARD OR READ DEFINITION FROM QXQ SCREEN]

- | | | |
|-----------------------|--------------------------|-------------------------|
| DAILY | <input type="checkbox"/> | 1 → GO TO C04 |
| LESS THAN DAILY | <input type="checkbox"/> | 2 |
| NOT AT ALL | <input type="checkbox"/> | 3 → GO TO C03 |
| DON'T KNOW | <input type="checkbox"/> | -7 → GO TO NEXT SECTION |
| REFUSED | <input type="checkbox"/> | -9 → GO TO NEXT SECTION |
-

Purpose: Section C includes questions about smokeless tobacco. C01 introduces the section and determines the current smokeless tobacco use status of the respondent.

Instructions: Read introduction, ask the question, and select only one answer. If the respondent says he/she does not know what smokeless tobacco is, you should read the definition from the QxQ screen (and provide a showcard if applicable). It is important not to select the “DON'T KNOW” answer for this situation. If a respondent does not know what smokeless tobacco is, most likely he/she is not using smokeless tobacco.

QxQ Screen: Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Daily means using smokeless tobacco at least one time every day or nearly every day over a period of a month or more.

Routing: If the answer is DAILY, the program will go to question C04.

If the answer is LESS THAN DAILY, the program will go to question C02.

If the answer is NOT AT ALL, the program will go to question C03.

If the answer is DON'T KNOW or REFUSED, the program will proceed to the next applicable section.

C02

Have you used smokeless tobacco daily in the past?

- YES ☐ 1 → GO TO C04
NO ☐ 2 → GO TO C04
DON'T KNOW ☐ -7 → GO TO C04
REFUSED ☐ -9 → GO TO C04
-

Purpose: Determines if the respondent used smokeless tobacco on a daily basis in the past.

Instructions: This question will only be asked to those respondents who said they currently use smokeless tobacco less than daily in question C01. Ask question and select only one answer.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to say whether he/she used smokeless tobacco daily in the past, unless the respondent truly cannot remember (e.g., due to memory loss).

QxQ Screen: Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Daily means using smokeless tobacco at least one time every day or nearly every day over a period of a month or more.

Routing: The program will go to question C04 for all answers.

C03

In the past, have you used smokeless tobacco on a daily basis, less than daily, or not at all?

[IF RESPONDENT HAS DONE BOTH “DAILY” AND “LESS THAN DAILY” IN THE PAST, CHECK “DAILY”]

- DAILY ☐ 1
LESS THAN DAILY ☐ 2
NOT AT ALL ☐ 3 → GO TO NEXT SECTION
DON'T KNOW ☐ -7 → GO TO NEXT SECTION
REFUSED ☐ -9 → GO TO NEXT SECTION
-

Purpose: Determines if the respondent used smokeless tobacco in the past if he/she currently does not use smokeless tobacco.

Instructions: This question will be asked if the respondent says he/she does not currently use smokeless tobacco at all in question C01. Ask question and select only one answer. Note that if a respondent says he/she used smokeless tobacco on a daily basis and less than daily in the past, select DAILY.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide his/her past smokeless tobacco use status, unless the respondent truly cannot remember (e.g., due to memory loss).

QxQ Screen: Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Daily means using smokeless tobacco at least one time every day or nearly every day over a period of a month or more.

Rare instances of smokeless tobacco use or experimental use (tried once or twice in lifetime) should be counted in the NOT AT ALL category.

Routing: If the answer is DAILY or LESS THAN DAILY, the program will go to question C04.

If the answer is NOT AT ALL, DON’T KNOW, or REFUSED, the program will proceed to the next applicable section.

BACK UP TO C06A

Purpose: The C06 series of questions determines the number of times a day (or week) a respondent uses various smokeless tobacco products.

Instructions: Asked to respondents who currently use smokeless tobacco on a daily basis. Ask stem question in C06A and each item part (C06A through C06E). Note that the stem question in parentheses for C06B through C06E does not need to be repeated for each item – only read if needed.

For C06A through C06E, if the respondent answers that he/she uses one of the products but not every day, you should select "USES LESS THAN DAILY" or enter "888". Then, the program will immediately administer a follow-up question (for that specific smokeless tobacco product) asking about per week usage. A similar option ("USES LESS THAN WEEKLY") is available for the per week questions (C06A1 through C06E2).

For C06E, if the respondent reports a type not already listed, you will be prompted to record the type in C06E1.

Note that the item parts (smokeless tobacco products) may be adjusted for the specific country.

QxQ Screen:

{IF RESPONDENT REPORTS USING THE PRODUCT BUT NOT EVERY DAY, ENTER 888 / IF RESPONDENT REPORTS USING THE PRODUCT WITHIN THE PAST 30 DAYS, BUT LESS THAN ONCE PER WEEK, ENTER 888}

IF DON'T KNOW, ENTER -7, IF REFUSED, ENTER -9

Validation Check: If the answers to C06A through C06E all are 0, a check screen will appear to indicate the respondent has reported using no smokeless tobacco products daily, but was classified as a daily smokeless tobacco user.

GO TO C09COMP

Purpose: Determines when the respondent stopped using smokeless tobacco.

Instructions: The C09 questions are asked to respondents who do not currently use smokeless tobacco but have used in the past. You will ask the question in C09A and record the answer using only one unit (years, months, weeks, or days) or select the appropriate category if the answer is less than one day (less than 24 hours). You will enter the unit in C09A and the number in the next screen (C09BYEARS, C09BMONTHS, C09BWEEKS, C09BDAYS).

Do not count instances where the respondent might have used a smokeless tobacco product on a rare occasion (e.g., one pinch of snuff at a wedding). We are interested in knowing the time frame from when the respondent stopped using smokeless tobacco on a regular basis.

If the answer is reported as a fraction (e.g., one year and two months), either convert the amount to a different unit (e.g., one year and two months = 14 months) or round up or down to the nearest whole number (round up for a half).

Routing: If the answer to C09A/B is less than one year (less than 12 months), the program will go to C09COMP.

REFUSED ☐ -9

Purpose: The D11 series of questions determines if the respondent used any of the listed methods to try to stop using smokeless tobacco in the past 12 months.

Instructions: Asked to respondents who currently use smokeless tobacco and have tried to quit using within the past 12 months. Ask stem question in item D11A and each item part (D11A through D11H). Note that the stem question in parentheses for D11B through D11H does not need to be repeated for each item – only read if needed.

Note that the methods and examples may be adjusted for the specific country.

QXQ Section:

D03F: If the respondent does not know what electronic cigarettes are, select NO.

D03G: If the respondent does not know what heated tobacco products are, select NO.

D11COMP

IF B10 OR D04 = 1, GO TO D14
IF B10 OR D04 = 2 OR -9, GO TO D16
ELSE GO TO D12

Purpose: Determines the appropriate routing sequence for the interview.

Instructions: The program will determine the appropriate routing based on previous questions. You will not see this screen.

Routing: If B10 or D04 = 1 (respondent already answered he/she went to visit a doctor or other healthcare provider in the past 12 months), the program will go to D14.

If B10 or D04 = 2 (respondent already answered he/she did not visit a doctor or other healthcare provider in the past 12 months) or -9 (REFUSED), the program will go to D16.

Otherwise the program will go to D12 for respondents who were not administered the question about visiting a doctor or other health care provider.

D12

Have you visited a doctor or other health care provider in the past 12 months?

YES ☐ 1
NO ☐ 2 → GO TO D16
REFUSED ☐ -9 → GO TO D16

Purpose: Determines if the respondent went to a doctor or health care provider in the past 12 months.

Instructions: Ask question and select only one answer.

Routing: If the answer is NO or REFUSED, the program will go to question D16.

D13

How many times did you visit a doctor or health care provider in the past 12 months? Would you say 1 or 2 times, 3 to 5 times, or 6 or more times?

1 OR 2 ☐ 1
3 TO 5 ☐ 2
6 OR MORE ☐ 3
REFUSED ☐ -9

Purpose: Determines how many times a respondent visited a doctor or health care provider in the past 12 months.

Instructions: Asked to respondents who said they have visited a doctor or health care provider in the past 12 months (in question D12). Ask question and select only one answer.

D14

During any visit to a doctor or health care provider in the past 12 months, were you asked if you used smokeless tobacco?

YES ☐ 1
NO ☐ 2 → GO TO D16
REFUSED ☐ -9 → GO TO D16

Purpose: Determines if, during a visit in the past 12 months to a doctor or health care provider, the respondent was asked if he/she uses smokeless tobacco.

Instructions: Asked if the respondent visited a doctor or health care provider in the past 12 months. Ask question and select only one answer.

Routing: If the answer is NO or REFUSED, the program will go to question D16.

D15

During any visit to a doctor or health care provider in the past 12 months, were you advised to stop using smokeless tobacco?

YES ☐ 1
NO ☐ 2
REFUSED ☐ -9

Purpose: Determines whether a respondent was advised by a doctor or health care provider (during any visit in the past 12 months) to stop using smokeless tobacco.

Instructions: Asked if a doctor or health care provider during any visit in the past 12 months asked the respondent if he/she uses smokeless tobacco. Ask question and select only one answer.

D16

Which of the following best describes your thinking about quitting smokeless tobacco? I am planning to quit within the next month, I am thinking about quitting within the next 12 months, I will quit someday but not within the next 12 months, or I am not interested in quitting?

- | | | |
|--|--------------------------|----|
| QUIT WITHIN THE NEXT MONTH | <input type="checkbox"/> | 1 |
| THINKING WITHIN THE NEXT 12 MONTHS | <input type="checkbox"/> | 2 |
| QUIT SOMEDAY, BUT NOT NEXT 12 MONTHS | <input type="checkbox"/> | 3 |
| NOT INTERESTED IN QUITTING | <input type="checkbox"/> | 4 |
| DON'T KNOW | <input type="checkbox"/> | -7 |
| REFUSED | <input type="checkbox"/> | -9 |
-

Purpose: Determines if the respondent is planning or thinking about quitting smokeless tobacco in the future.

Instructions: Ask question and select only one answer that comes closest to the respondent's answer.

3.8 Section E: Secondhand Smoke

E01

I would now like to ask you a few questions about smoking in various places.

Which of the following best describes the rules about smoking inside of your home: Smoking is allowed inside of your home, smoking is generally not allowed inside of your home but there are exceptions, smoking is never allowed inside of your home, or there are no rules about smoking in your home?

- ALLOWED..... ☐ 1
NOT ALLOWED, BUT EXCEPTIONS ☐ 2
NEVER ALLOWED ☐ 3 → GO TO E04
NO RULES..... ☐ 4 → GO TO E03
DON'T KNOW ☐ -7 → GO TO E03
REFUSED ☐ -9 → GO TO E03
-

Purpose: Section E includes questions about exposure to secondhand smoke. E01 determines whether smoking is allowed in the respondent's home.

Instructions: Read introduction, ask question and select only one answer.

QxQ Screen: This question is asking about the rules for inside the respondent's home. This only includes enclosed areas of the home – the respondent should not include areas outside of the home including patios, porches, etc. that are not fully enclosed.

Routing: If the answer is NEVER ALLOWED, the program will go to question E04.

If the answer is NO RULES, DON'T KNOW, OR REFUSED, the program will go to question E03.

E02

Inside your home, is smoking allowed in every room?

- YES ☐ 1
NO ☐ 2
DON'T KNOW .. ☐ -7
REFUSED ☐ -9
-

Purpose: Determines whether smoking is allowed in every room inside of the respondent's home.

Instructions: Asked if the respondent reports that smoking is allowed in his/her home in question E01. Ask question and select only one answer.

QxQ Screen: This question is asking about the rules for inside the respondent's home. This only includes enclosed areas of the home – the respondent should not include areas outside of the home including patios, porches, etc. that are not fully enclosed.

E03

How often does anyone smoke inside your home? Would you say daily, weekly, monthly, less than monthly, or never?

- | | | |
|-------------------------|--------------------------|----|
| DAILY | <input type="checkbox"/> | 1 |
| WEEKLY | <input type="checkbox"/> | 2 |
| MONTHLY | <input type="checkbox"/> | 3 |
| LESS THAN MONTHLY | <input type="checkbox"/> | 4 |
| NEVER | <input type="checkbox"/> | 5 |
| DON'T KNOW | <input type="checkbox"/> | -7 |
| REFUSED | <input type="checkbox"/> | -9 |
-

Purpose: Determines the frequency of anyone smoking inside the respondent's home.

Instructions: Asked if the respondent reports that smoking is allowed in his/her home in question E01 (or answered NO RULES, DON'T KNOW, or REFUSED to E01). Ask question and select only one answer. The respondent should select one of the response categories that comes closest to his/her situation.

QxQ Screen: This question is asking about inside the respondent's home. This only includes enclosed areas of the home – the respondent should not include areas outside of the home including patios, porches, etc. that are not fully enclosed.

E04

Do you currently work outside of your home?

- | | | |
|---------------------|--------------------------|----------------|
| YES | <input type="checkbox"/> | 1 |
| NO/DON'T WORK | <input type="checkbox"/> | 2 → GO TO E09 |
| REFUSED | <input type="checkbox"/> | -9 → GO TO E09 |
-

Purpose: Determines whether the respondent works outside of the home.

Instructions: Ask question and select only one answer. If the respondent says he/she does not currently work, select NO/DON'T WORK.

Routing: If the answer is NO/DON'T WORK or REFUSED, the program will go to question E09.

E05

Do you usually work indoors or outdoors?

INDOORS ☐ 1 → GO TO E07
OUTDOORS ☐ 2
BOTH ☐ 3 → GO TO E07
REFUSED ☐ -9

Purpose: Determines if the respondent usually works inside or outside.

Instructions: Ask question and select only one answer. If the respondent says he/she works both indoors and outdoors, select BOTH.

Routing: If the answer is INDOORS or BOTH, the program will go to question E07.

E06

Are there any indoor areas at your work place?

YES ☐ 1
NO ☐ 2 → GO TO E09
DON'T KNOW.. ☐ -7 → GO TO E09
REFUSED ☐ -9 → GO TO E09

Purpose: Determines whether there are any indoor areas at the respondent's workplace if he/she reports usually working outside. This attempts to capture situations where a respondent primarily works outside but sometimes there is an indoor area where workers can go.

Instructions: Asked to respondents who report usually working outdoors in question E05. Ask question and select only one answer.

Routing: If the answer is NO, DON'T KNOW, or REFUSED, the program will go to question E09.

E07

Which of the following best describes the indoor smoking policy where you work: Smoking is allowed anywhere, smoking is allowed only in some indoor areas, smoking is not allowed in any indoor areas, or there is no policy?

- ALLOWED ANYWHERE..... ☐ 1
ALLOWED ONLY IN SOME INDOOR AREAS ... ☐ 2
NOT ALLOWED IN ANY INDOOR AREAS ☐ 3
THERE IS NO POLICY ☐ 4
DON'T KNOW ☐ -7
REFUSED ☐ -9
-

Purpose: Determines the smoking policy for indoor workplaces where respondent works.

Instructions: Asked if the respondent reports that he/she usually works indoors or if there are indoor places at work. Ask question and select only one answer that comes closest to the respondent's answer.

E08

During the past 30 days, did anyone smoke in indoor areas where you work?

- YES ☐ 1
NO ☐ 2
DON'T KNOW .. ☐ -7
REFUSED ☐ -9
-

Purpose: Determines if anyone smoked in indoor areas where the respondent works in the past 30 days, regardless of the indoor smoking policy.

QxQ Screen: The respondent should answer yes if he/she saw somebody smoke or smelled the smoke inside the indoor areas where he/she works. This question is asking about enclosed indoor areas, not outside areas (such as a courtyard within a complex).

Instructions: Ask question and select only one answer.

E09

E22

Did anyone smoke inside of any school buildings that you visited in the past 30 days?

YES ☐ 1
NO ☐ 2
DON'T KNOW.. ☐ -7
REFUSED ☐ -9

Purpose: Questions E09 through E22 determine whether anyone smoked in indoor places that the respondent may have visited in the past 30 days.

Instructions: Questions E09/E11/E13/E15/E17/E19/E21 are asked to determine if the respondent visited the place during the past 30 days. If the answer is YES, the follow-up questions E10/E12/E14/E16/E18/E20/E22 are asked to determine if anyone smoked inside during the respondent's visit.

Note that other places of interest may be added to the questionnaire by the country.

QxQ Screen: The respondent should answer yes if he/she saw somebody smoke or smelled the smoke inside the place of interest. This question is asking about enclosed indoor areas, not outside areas (such as a courtyard within a complex).

E23

Based on what you know or believe, does breathing other people's smoke cause serious illness in non-smokers?

YES ☐ 1
NO ☐ 2
DON'T KNOW.. ☐ -7
REFUSED ☐ -9

Purpose: Determines whether the respondent thinks breathing secondhand smoke causes serious illness in non-smokers.

Instructions: Ask question and select only one answer.

3.9 Section F: Economics – Manufactured Cigarettes

F00COMP

IF (B01 = 1 OR 2) AND (B06A OR B10A > 0), GO TO F01A ELSE GO TO NEXT SECTION

Purpose: Section F includes questions about the last purchase of manufactured cigarettes. F00COMP determines the appropriate routing sequence for the interview.

Instructions: The program will determine the appropriate routing based on previous questions. You will not see this screen.

Routing: If the respondent is a current smoker (B01 = 1 or 2) and the respondent reported that he/she smokes manufactured cigarettes (B06A or B10A > 0), the program will go to question F01A.

If the respondent is not a current smoker of manufactured cigarettes, Section F will be skipped and the interview will proceed to the next applicable section.

F01A

The next few questions are about the last time you purchased cigarettes for yourself to smoke.

The last time you bought cigarettes for yourself, did you buy loose cigarettes, packs, cartons, or something else?

GO TO F02

F01DOTHER

How many cigarettes were in each {F01C}?

RANGE: 1 – 800, -7 (DON'T KNOW), -9 (REFUSED)

GO TO F02

Purpose: Determines the quantity of cigarettes that were purchased the last time the respondent bought cigarettes for him/herself. These questions (along with F02) will be used to calculate how much money was spent on cigarettes.

Instructions: The F01 questions are asked to respondents who are current smokers of manufactured cigarettes. You will ask question F01A and record the unit of purchase (cigarettes, packs, cartons, other). If OTHER is selected in F01A, you will specify the unit type in F01C. The number of units purchased will be collected in the next screen (F01B). If the answer was reported in packs, cartons, or other, the program will then go to F01D to ask the respondent how many cigarettes were in each unit.

It is important to record the correct unit and corresponding number. For example, if the unit CIGARETTES is selected in F01A, you need to enter the total number of cigarettes purchased in F01B, not the number of packs or cartons.

QxQ Screen: Only report number of cigarettes that the respondent purchased to smoke. Do not include cigarettes purchased by a vendor for resale.

Routing: If the respondent answers that he/she has never bought cigarettes for him/herself in F01A, the rest of Section F will be skipped and the program will proceed to the next applicable section.

If the respondent refuses to answer question F01A, the program will go to question F03.

F02

In total, how much money did you pay for this purchase?

RANGE: 1 – 500, -7 (DON'T KNOW), -9 (REFUSED)

Purpose: Determines how much money the respondent paid for the last purchase of cigarettes by the respondent. This question (along with the F01 questions) will be used to calculate how much money was spent on cigarettes.

Instructions: Ask question and enter the monetary amount of purchase in the country's currency. A decimal (.) is allowed to be entered but a comma (,) is not. This needs to be emphasized in training for countries that use a comma (,) for reporting monetary amounts.

Note that the range will be adjusted for the specific country depending on the cost of cigarettes.

QxQ Screen: Only report money paid for cigarettes that the respondent purchased to smoke. Do not include cigarettes purchased by a vendor for resale.

IF CORRECT, CONTINUE WITH INTERVIEW

IF NOT CORRECT, BACK UP TO CHANGE ANSWERS]

Purpose: Validation check screen for the reported unit, number, and amount paid of the last cigarette purchase.

Instructions: From the previous answers, the program will fill in the unit, number of units purchased, number of cigarettes in each unit, and the amount paid. Check these values carefully to make sure they are correct. If not correct, go back to change the answer(s).

Purpose: Determines the place where the respondent made his/her last purchase of cigarettes for himself/herself.

Instructions: Ask question but do not read response categories. Select only one answer that comes closest to the respondent's answer. You will record the location in F04A if OTHER is selected in F04.

Note that the categories may be adjusted for the specific country.

3.10 Section G: Media – Structure #1

G01INTRO

The next few questions ask about your exposure to the media and advertisements in the last 30 days. I will first ask about noticing anti-cigarette information and then ask about noticing cigarette advertisements and promotions.

Purpose: Section G includes questions about the respondent's exposure to the media and advertisements about tobacco in the last 30 days. Structure #1 is used for countries that only ask about one tobacco product (e.g., cigarettes) in Section G.

Instructions: Read the introduction to the respondent and go to the next question.

For G04K, if the respondent reports a place not already listed, you will be prompted to record it in G04K1.

Note that G04A should be included for all countries but the other places may be adjusted for the specific country.

QxQ Screen: Select the NOT APPLICABLE category if the respondent says he/she did not do the activity in the past 30 days. Do not offer this category to the respondents.

Routing: Some of the questions may be automatically skipped by the program if the answers were recorded as NOT APPLICABLE in G01 for the same items (e.g., television, radio, billboards, newspapers or magazines, internet). For example, if in G01B, the respondent says he/she did not watch television in the past 30 days, we will not ask G04B about noticing cigarettes advertisements on television.

Note that the item parts (promotions) may be adjusted for the specific country.

3.11 Section G: Media – Structure #2

G201INTRO

The next few questions ask about your exposure to the media and advertisements in the last 30 days. I will first ask about noticing anti-tobacco information and then ask about noticing tobacco advertisements and promotions.

Purpose: Section G includes questions about the respondent's exposure to the media and advertisements about tobacco in the last 30 days. Structure #2 is used for countries that ask about two or more tobacco products (e.g., cigarettes, bidis, smokeless tobacco).

Instructions: Read the introduction to the respondent and go to the next question.

G201F3A

Please specify where.

Purpose: The G201 series of questions determines if the respondent noticed information or news stories from various sources about the dangers of tobacco products or that encourages quitting in the past 30 days

Instructions: The G201 set of questions will be asked for each tobacco product (e.g., cigarettes, bidis, smokeless tobacco). Ask stem question in item G201A1/2/3 and each item part (G201A1/2/3 through G201F1/2/3). Note that the stem question in parentheses for G201B1/2/3 through G201F1/2/3 does not need to be repeated for each item – only read if needed.

For G201F1/2/3, if the respondent reports a source not already listed, you will be prompted to record it in G201F1A/2A/3A. We do not want to include health warnings on the tobacco packages for these questions because we specifically ask about health warnings in later questions.

Note that the tobacco products and item parts (sources) may be adjusted for the specific country.

QxQ Screen: Select the NOT APPLICABLE category if the respondent says he/she did not do the activity in the past 30 days. Do not offer this category to the respondents.

Routing: Some of the questions in the second and third G201 series may be automatically skipped by the program if the answers were recorded as NOT APPLICABLE in the first G201 series for the same items. For example, if in G201A1, the respondent says he/she did not read newspapers or magazines in the past 30 days, we will not ask G201A2 nor G201A3.

Purpose: The G202/G203 questions determine if current users (of the specific tobacco product) noticed any health warnings on the tobacco packages in the past 30 days, and if yes, whether the warning labels on the packages caused them to think about quitting.

Instructions: The COMP items determine the routing of the interview and you will not see these screens. Questions G202A/B/C and G203A/B/C are only asked to current users of the products (e.g., B01 = 1 or 2, C01 = 1 or 2). Ask questions and select only one answer.
