

Global Adult Tobacco Survey (GATS)

Sample Review Committee

The objective of the GATS Sample Review Committee (SRC) is to establish a global standard and set a transparent sample design review process for participating countries. The SRC aims to make sure that this process is executed by using scientific principles and procedures which are described in the sample design, sample weights, and quality assurance manuals. Furthermore, the SRC ensures that participating countries produce the highest quality estimates possible.

Current members of the SRC include:

- **J. Michael Bowling, PhD**, Chair—University of North Carolina Gillings School of Public Health
- **Ronaldo Iachan, PhD**, ICF International
- **William D. Kalsbeek, PhD**, University of North Carolina Gillings School of Public Health
- **Francis Potter, PhD**, Mathematica Policy Research
- **Tarun K. Roy, PhD**, International Institute for Population Sciences, India

For any questions regarding the SRC, please contact GTSSinfo@cdc.gov.
