

GYTS Objectives

The Global Youth Tobacco Survey (GYTS), a component of the Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring youth tobacco use and tracking key tobacco control indicators.

GYTS is a cross-sectional, nationally representative school-based survey of students in grades associated with ages 13 to 15 years. GYTS uses a standard core questionnaire, sample design, and data collection protocol. It assists countries in fulfilling their obligations under the World Health Organization (WHO) Framework Convention on Tobacco Control (FCTC) to generate comparable data within and across countries. WHO has developed MPOWER, a technical package of selected demand reduction measures contained in the WHO FCTC:

- Monitor tobacco use & prevention policies**
- Protect people from tobacco smoke**
- Offer help to quit tobacco use**
- Warn about the dangers of tobacco**
- Enforce bans on tobacco advertising, promotion, & sponsorship**
- Raise taxes on tobacco**

GYTS Methodology

GYTS uses a global standardized methodology that includes a two-stage sample design with schools selected with a probability proportional to enrollment size. The classes within selected schools are chosen randomly and all students in selected classes are eligible to participate in the survey. The survey uses a standard core questionnaire with a set of optional questions that countries can adapt to measure and track key tobacco control indicators. The questionnaire covers the following topics: tobacco use (smoking and smokeless), cessation, secondhand smoke (SHS), pro- and anti-tobacco advertising and promotion, access to and availability of tobacco products, and knowledge and attitudes regarding tobacco use. The questionnaire is self-administered; using scannable paper-based bubble sheets, it is anonymous to ensure confidentiality.

In Thailand, GYTS was conducted in 2022 by the Office of Tobacco Products Control Committee under the coordination of the Ministry of Health. The overall response rate was 64.4%. A total of 7,846 eligible students in grades 7-9 completed the survey, of which 6,752 were aged 13-15 years. Data are reported for students aged 13-15 years.

GYTS Highlights

TOBACCO USE

- 12.5% of students, 17.3% of boys, and 7.9% of girls currently used any tobacco products.
- 11.4% of students, 15.6% of boys, and 7.3% of girls currently smoked tobacco.
- 8.1% of students, 11.4% of boys, and 4.8% of girls currently smoked cigarettes.
- 3.2% of students, 4.7% of boys, and 1.7% of girls currently used smokeless tobacco.

ELECTRONIC CIGARETTES

- 17.6% of students, 20.2% of boys, and 15.0% of girls currently used electronic cigarettes.

CESSATION

- Almost 8 in 10 (76.9%) students who currently smoked tobacco tried to stop smoking in the past 12 months.
- Almost 6 in 10 (59.0%) students who currently smoked tobacco wanted to stop smoking now.

SECONDHAND SMOKE

- 26.0% of students were exposed to tobacco smoke at home.
- 32.4% of students were exposed to tobacco smoke inside enclosed public places.

ACCESS & AVAILABILITY

- 71.9% of students who currently smoked cigarettes bought cigarettes from a store, small grocery, stall, flea market, or convenience store.
- Among students who currently smoked cigarettes who tried to buy cigarettes, 33.6% were not prevented from buying them because of their age.

ADVERTISING & PROMOTION

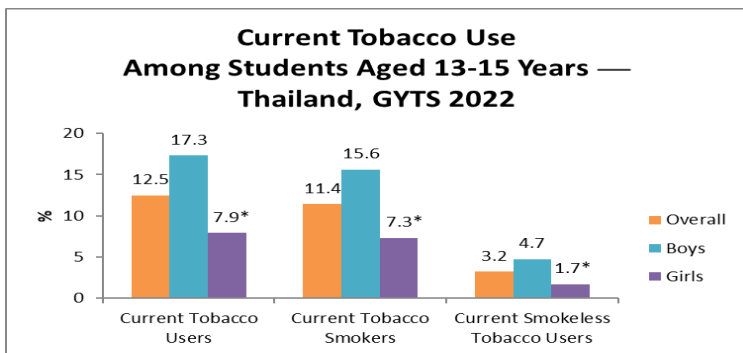

- More than 6 in 10 (61.3%) students noticed anti-tobacco messages in the media.
- More than 3 in 10 (31.3%) students noticed tobacco advertisements or promotions when visiting points of sale.
- More than 1 in 10 (12.5%) students had something with a tobacco brand logo on it.

KNOWLEDGE & ATTITUDES

- 66.9% of students definitely thought other people's tobacco smoking is harmful to them.

TOBACCO USE

	OVERALL (%)	BOYS (%)	GIRLS (%)
ANY TOBACCO USE (<i>smoked and/or smokeless</i>)			
Current tobacco users ¹	12.5	17.3	7.9*
Ever tobacco users ²	27.6	35.8	19.6*
SMOKED TOBACCO			
Current tobacco smokers ³	11.4	15.6	7.3*
Current cigarette smokers ⁴	8.1	11.4	4.8*
Frequent cigarette smokers ⁵	1.4	2.2	0.7*
Current smokers of other tobacco ⁶	6.3	8.1	4.5*
Ever tobacco smokers ⁷	26.4	34.3	18.7*
Ever cigarette smokers ⁸	23.0	30.4	15.9*
Ever smokers of other tobacco ⁹	11.7	15.0	8.5*
SMOKELESS TOBACCO			
Current smokeless tobacco users ¹⁰	3.2	4.7	1.7*
Ever smokeless tobacco users ¹¹	4.9	7.2	2.7*
SUSCEPTIBILITY			
Never tobacco users susceptible to tobacco use in the future ¹²	19.1	22.1	16.6*
Never tobacco smokers who thought they might enjoy smoking a cigarette ¹³	16.5	21.3	12.6*

ELECTRONIC CIGARETTES

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current electronic cigarette users ¹⁴	17.6	20.2	15.0*
Ever electronic cigarette users ¹⁵	37.3	41.4	33.2*

CESSATION

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current tobacco smokers who tried to stop smoking in the past 12 months	76.9	76.8	77.0
Current tobacco smokers who wanted to stop smoking now	59.0	59.8	57.5
Current tobacco smokers who thought they would be able to stop smoking if they wanted to	68.2	66.7	71.3
Current tobacco smokers who have ever received help/advice from a program or professional to stop smoking	20.8	21.0	20.4

SECONDHAND SMOKE

	OVERALL (%)	BOYS (%)	GIRLS (%)
Exposure to tobacco smoke at home ¹⁶	26.0	25.8	26.1
Exposure to tobacco smoke inside any enclosed public place ¹⁶	32.4	30.9	33.9
Exposure to tobacco smoke at any outdoor public place ¹⁶	30.7	29.1	32.2
